

Seminar Series – Industrial Scholar

Dr. John Hill

- Director, BioProcess Technology Group, BDO, Seattle, WA
- Affiliate Associate Professor, Department of Bioengineering, University of Washington

Dr. James Lai

- Co-Founder, Nexgenia, Inc., Seattle, Washington
- Research Associate Professor, Department of Bioengineering, University of Washington

Topics

- Startup business – venture capital and entrepreneurship
- Introduction for (a) biomaterials and smart polymers; and (b) in vitro diagnostics
- (a) Modern biotherapeutic medicines; (b) Overview of industrial therapeutic discovery and development activities
- Analytical and biophysical tools and methods; biological therapeutic candidate selection, stabilization, and analysis
- Analytical and process development considerations in support of GMP manufacturing of biological therapeutics
- Commercialization case study – smart polymer reagents for (a) immunoprecipitation; (b) biomarker detection; and (c) bioprocessing

Dates /Time /Place:

4/29(一) 17:30 – 20:30 台達館B03, 4/30(二) 17:30 – 20:30 台達館B08,
5/1(三) 17:30 – 20:30 台達館B08, 5/2(四) 17:30 – 20:30 台達館B08,
5/3(五) 17:30 – 20:30 台達館B08, 5/6(一) 17:30 – 20:30 台達館B03
